ALPEGO SKAT MAX Subsoiler
A folding hydro-pneumatic subsoiler for very high-powered tractors.
The SKAT MAX folding hydro-pneumatic subsoiler is an innovative solution for your field. It is equipped with ISOBUS electronics, the ALFAST system and a hydraulically adjustable roller as standard. The ISOBUS-controlled hydro-pneumatic safety system reduces power and fuel consumption whilst improving traction and hourly output. All the machine's functions are controlled instantly from the driver's seat, with no need for manual adjustments. It is available in 5-metre and 6-metre versions and is suitable for very high-powered tractors ranging from 300 to 600 k.s.
