БЕЛЕЖКИ

clone T VBS2-915 fan sprayer
he Cyclone T VBS2-915 sprayer is designed to deliver high-quality spraying in orchards and vineyards, ensuring id eal air distribution and optimum settings for efficient spraying. The machine's compact design and low centre of gr avity allow it to operate on hilly terrain, whilst the adjustable axle bridge further stabilises the machine.
* dditional options: Stainless steel booms and nozzles, electric control, GPS-based dose control system, copper ion g enerator, extended wheels and more.
