БЕЛЕЖКИ

The GAL-K HD disc harrows are designed for extra strength. Compared to the standard GAL-K model, the HD version o ffers the following advantages: a reinforced frame construction, a four-cylinder folding mechanism, an integrated t ransport chassis with suspension positioned between the discs and the roller, hydraulic working depth adjustment a nd more. MANDAM maintenance-free hubs with a 5-year warranty, together with a wide range of available discs, e nsure excellent working efficiency. There is a choice of 10 different rollers, as well as many other accessories, a llowing for great flexibility in configuration.
